# HONGKONG, FRIDAY, APRIL 18, GREEKS AND ALLIES ALONG FRONT FROM MOUNT OLYMPUS TO KORITZA

Registered as a Newspaper at the General

Post Office in the United Kingdom.

LONDON, APR. 17 (BRITISH WIRELESS)-THE FORCE OF THE GERMAN ON-SLAUGHT IS MADE CLEAR BY THE FOLLOWING OFFICIAL GREEK COMMENT ON A COMMUNIQUE WHICH SAYS: "THE GERMANS YESTERDAY THREW THE WHOLE WEIGHT OF THE MILITARY MECHANISM AGAINST THE GREEKS AND THEIR ALLIES UPON WHOM THEY ARE EXERTING EXTREME PRESSURE.

"A battle has been launched along the whole front from Mount Olympus to Koritza. German pressure is heaviest at three main points—the region of Grevena, in the south on the River Aliakmon and in the west at Koritza.

"A German column operating in the Grevena area is trying to push forward towards Karabaka in Thesealy. Another force is pushing south of the Aliakmon, while the third, advancing by Vlacho and Klissura towards Castoria, is stated to have reached the old Greek-Albanian frontier.

# Today's News Summary

THE GERMANS have thrown the full weight of their military mechanism against the Greek and Allied, forces along the whole front from Mount Olympus to Koritza."

LORD STAMP, the prominent economist, and Lady Stamp, were among those killed in the raids on London on Wednesday night, the heaviest yet experienced in the war. Fire watchers did yeomen work and the women rendered aid wonderfully.

WIDESPREAD raids were carried out by British bombers over Northern Germany on Wednesday night. THE JAPANESE authorities have extended the naval blockade

of the South China coast, it is announced. THE RATEPAYERS' meeting in Shanghal marked a new era in the history of the International Settlement and the proposal for a Provisional Council of 16 members was unanimously adopted.

"THE GERMANS WERE It had to be remembered that STUBBORNLY OPPOSED General Papagos and General Sir Maitland Wilson had to perform ALL ALONG THE LINE." a most difficult and delicate

operation of the war and that was "In several of the German to reconstitute positions in new communiques about the Greek terrain and effect a head junction front during the last few days between two almost separated there has been a comic note of forces in the face of relentless and petulance," said MAJOR HAST- powerful enemy mechanised forces. # Seven Tricks Employed By Candidates Sitting For The Examinations

Candidates sitting today for a Doctor's or a Master's degree in a modern university are faced with a much easier task than that which confronted candidates in the old Imperial Examinations in China for official honours, Mr. Wong Kwok-fong told the Y's Men's Club at their weekly tiffin meeting yesterday.

Yet there were no fewer than seven distinct and well-known ways by means of which it was possible to achieve success by tricking one's way through. The candidate had a number of ways by which he could achieve success other than by being a brilliant student, and these were quite widely employed.

of his more learned employee.

pecially in the final examination

The whole examination was a very long one. Mr. Wong said, and Tung Shi, equivalent to a School Junior exam, the second the Yuen Shi, equivalent to School Leaving exam, the third the Yuen Shi, held in the provincial capitals, which gave the degree of Sau Choi. was an examination of higher whatever titles they already held.

#### MASTER'S DEGREE

The fourth stage was the Heung in the adjoining cage. Shi which gave the Kui Yan or Master's Degree. This was also held in the provincial capitals and success allowed the candidate participation in the final Wui Shi examination, held in the Imperial Palace in Peking, under the supervision of the Emperor himself, which gave the rank of Hon Lam.

The examination was a very arduous one and all the stages required a good number of years. Success, however, meant honours, official posts, and a good income", and success was, therefore, sought by many.

... The candidate sitting for the cheat their way to success. first stage in his home district would have to be in the examina- speaker. tion hall at early dawn. He was given the number of his seat and had to watch out for the examiners' assistant, a man of office-boy or even coolie class, who carried around the room tablets on which the questions were set out.

#### STRICTLY SEARCHED

The candidate had to remain the whole day in the examination room and had to eat there and was not permitted to leave even for reasons of tollet. Before going in, he was strictly searched by a kind of Ta Tao or police. He was allowed to bring into the examination room a little food. ben and ink, and the garments on himself. He was accompanied by a guarantor or sponsor who vouched for his identity.

If he passed the first day's examination, his name would appear on the list of successful candidates in a day or two and he. would be eligible to sit a second and, if again successful, a third day, success through all three days permitting him to pass the first stage. The other examinations were as long and arduous, and in fact with every stage they became more so.

#### PURE BRIBERY

The first well-known trick was each scene making the comedy the Mai Kwan Chi, which was something that is both delightful nothing more nor less than pure and wholesome. brihery. Though officials held The scenes are typically English high rank, they were not unap- having as backgrounds a Grafton proachable and would for a suit- Street flat and an up river resiable present give out hints as to dence on the Thames. what questions would be set. They | The producer has made more out would also provide the candidate's of the action of the play than is award him a pass. There was al- season. ways a risk attached to this, especially for the examiner, as the paper could whe referred to an examiner in higher authority.

The Examiner read only a copy of the candidate's essay, not the original, these copies being written out by scribes specially employed for this purpose. Such copies bore the candidate's number, but not his name.

The second trick was known as the Kap Tat, students concealing books in minute willing in the lining of their coat, in the soles of their shoes, in their ink tablets or pen holders. They even wrote on their clothes in certain/chemicals, and an accompanying measure to insure the success of this was to bribe the searchers.

EXAMINER AS MESSENGER! By means of the third trick, the Chuen Tai, candidates transferred information one to another in the classroom. sometimes employing the examiner as messenger, gumming their messages on to the back of his cost. The fourth

trick, the Kok Kuen, necessitated

# Galento Wants To Meet Louis For World Title

So you thought you had seen and heard the last of Tony Galento the New Jersey fat man?

You probably thought when you saw Tony, with his face a battered pulp, clinging desperately to Joe Louis' knee that the fat man was all washed up as a fighter, writes Pat Robinson.

Well, we hate to distillusion you a fight is ever held it would have but the fact remains that Tony is to be in New York and not in back: matter than ever, and Philadelphia where Tony in preclamouring for action.

action from Joe Louis get it. And HOW he'll get it!

It seems that promoter Mike code. Jacobs believes Tony is still a drawing card, at least in his own home state, and if Tony wants to weighs but the last time we saw. have his mugg massaged again by Louis' iron fists, why far be it from

Mike to dissuade him. be tickled pink, for if there is one prised. thing Joe Louis enjoys more than Sydney Diamond 142, Tobaccoship tures of the fat man who called future reference.

vious fights has been allowed to And, believe it or not, he wants disregard all the rules in the book. To put it mildly, Tony is not at Worse, still, he is quite likely to his best when forced to fight according to the rules of the boxing

#### 264 POUNDS!

If memory serves, he Present plans call for this plea- scaled something like 234 the last sant little slaughter to be staged time he crawled through the ropes in Newark and those who like to with Louis. If he scales less than

In any event, both Louis and another it is massaging the fea- Jacobs have Tony stored up for

Billy Conn is slated for Joe's big Tony also would like another out-door shot here in June and if meeting with Lou Nova but if such | Joe gets by that one he probably will have a September date with Lou Nova, provided Nova continues to fight as he did against Pat" Comiskey.

> It is amazing how everybody wants to fight Louis. You'd think to hear even some of the palukas talk that Joe is a pushover, The fact is, they all are willing to risk a terrific beating for the large loser's end involved. Of course, that, doesn't apply to Billy Conn, the light heavyweight champion, who is sincerely convinced that he can lick Louis. Billy thinks he will have little trouble stepping around and making a sucker out of Joe. Whether he can do that remains to be seen but in any case enough persons are interested to see him try to insure at least a \$250,000 gate. And if Louis should not look too good against the Burans, Godoys and Simonses, the Conn-Louis battle might draw far more than a quarter million.

#### C.S.C.C. Practice Bowls Game

The Civil Service Cricket Club find it impossible to enter more than one team in the Bowls Divisions this season. Gaps in the bowlers ranks have been occasioned by the retirement of Grimmitt, (ex-Colony champion) R. R. Wood, and the transfer of J. Hollidge to Singapore. Powlers on leave include Deakin, Collyer and Hillyer, whilst A. B. Allan had received medical advice to refrain from playing this season. Other members will not be available by reasons of military and volunteer duties. An inter ciub game will be held

on Saturday April 19 at 3.15 p.m. to which all members interested in bowls are invited.

# WESTERN MACEDONIA BATTLE German Army Contained IN FULL PROGRESS

#### Units Mechanised German Halted With Severe Losses By Greek, British Forces

LONDON, Apr. 17 (Reuter)-The battle in western Macedonia which began on Tuesday is now in full progress, says the Athens radio last night. The announcer adds that the Greek army has inflicted serious losses on the Germans...

After their slight push westwards on Monday, the Germans attempted to make further progress on Monday and brought very considerable forces into play, supported by German aircraft.

The announcer quoted the Greek Press and a Ministry bulletin which said, "All the ordered movements of our forces in taking up their new positions were effected without loss.

# In Centre Of Serbia ON LONDON Verles Bridge Destroyed By R.A.F. In Daring Raid

: ATHENS, Apr. 17 (Reuter) - The German army is held in the centre of Southern Serbia as the result of successful bombing by the R.A.F. of the bridge across the Vardal River at Verles. The story of how hell-diving British bombers carried out this hazardous task shows that the exploit ranks with other epic attacks on strategic points in this war such as that on the bridge at Maestricht.

In one respect it differs from similar feats of heroism in that all British aircraft returned safely. The British pilots knew when they took off for this night raid that the bridge at Verles was a communications key in the centre of Southern Serbia and would be strongly defended.

and German antiaircraft batteries fighting for its life. hurled tons of explosives into the over the target but not one at-

One pilot ran the gauntlet four times before he was satisfied that his bombs could be released with High explosive bombs fell in one the greatest effect. His stick of bombs struck the bridge and R.A.F. fighters soared to attack molished it and the second Greeks have repulsed local Italian the Luftwaffe and machine-gun adjacent to the railway line while incendiary bombs set fire to sur rounding buildings

Other British aircraft, when One British pilot of a night they arrived, found the bridge had been brought to a standstill

cross the Mediterranean, his at tempts to push ahead at this rate

> may be disastrous. "General Wavell, however, is a cool and skilled commander and he may yet have a surprise for the enemy, but It is idle to deny that the position here is a serious one."

> > IN THE BALKANS

Capt. Falls, "the enemy has relied on his former methods to win him victory. Everything was done with tank columns, which poured in from Strumitza, broke through the Vardar Valley and swept on into the Gulf of Salonika. This method captured not only Salonika, but cut off the Greek army from the Empire forces. Another thing he did was to rapture the town of Skopije and this virtually separated the Yugoslav fighting further north.

"The real weight of the offensive for?" said came from the Bulgarian frontier. "Identity-card," mate," said the Up in the north, the German ad-skeleton." vance was comparatively leisurely. It was soon obvious that Yugo- Sweet young thing discussing slavia could not hope to resist the the horrors of war. ## NORTH AFRICA & BALKAN SITUATION DISCUSSED BY MILITARY EXPERT

"We must understand that there can be no victory until we have completely beaten a much more deadly foe," said CAPT. CYRIL FALLS, military correspondent of THE TIMES, when he broadcast from London yesterday on how the German advance in the Balkans and "North Africa should be interpretted.

ning our victories in North Africa, of the weakness of the to bullock their way through. If enemy whom we overcame so any troops were posted on the high

SOMETHING DIFFERENT

"In the first place, as an offcer of one of our armoured corps said, the "Italians were not properly equipped for the task of invading Egypt. Their tanks were not effective or numerous and I doubt whether the Italians had learned the German doctrine o using armoured corps

"The German Panzer divisions are something more than a number of tanks. It is a machine trained for a special purpose and so far it has been able to adapt itself to very different kinds of country. We shall beat it yet. hope, but we must never underestimate it.

"In the second place, the Italians never displayed the same spirit us the Germans. They were never good soldiers and their hearts were never in this war. I don't care what the German second lines are in this war, but there is no doubt that the picked men in the motorised and mechanised divisions are of very high quality. Here, therefore, is my reading of the present situation from the meagre reports that have scome from North

Africa. NO MAJOR BATTLE LOST "We have nad some of our rearguards over-run, but we have lost no major battle because we have not yet rought one. General Wavell probably prefers to let the enemy go on before giving battle, That may be a favourable policy, but it a has its unfavourable side. Apart from the question of prestige, however, General Wavell would never have abandoned Cyreneica to the enemy unless he

had come to the conclusion that dogged resistance would be ten "I am inclined to expect, therefore, that there will be a counterstroke in the near future, though we need not be surprised if there are some more withdrawals first. But we must be prepared also to

expect that it will be a more difficult affair than the Battle of Sidi Barrani. "I don't understand now enemy has been able to keep up the momentum of this advance. far bigger risks in fact than in the Balkans—and in North Airica, where his communications have to

"In the Balkans." continued

north of the river.

OLD PRINCIPLE.

roads especially when they are in officials here

"I cannot help thinking," the nature of mountain passes, began Capt. Falls, "how all before you commit your force to Mr. Lee Kai-sing, clerk, of No. 89 of us felt, when we were win- these roads. Must we re-write this

"The Germans used these roads ground in the mountains, it would be a sheer impossibility for tanks. to bullock their way through.

"The most serious handicap of the Yugoslav army is its inability to obtain supplies of war materials to any large extent," continued Capt. Fails. "This, of course, cripples their power of resistance, but they have still been giving the enemy much trouble.

"If the German armoured columns get stuck, they will have to bring up infantry to dislodge the Yugoslav aimy. The fine Yugoslav army has a very hard time in front of it, but you may remember that there are in its ranks some of the toughest and finest mountain warriors in Europe.

SITUATION IN GREECE

"Now let us look at the situation. in Greece," continued Capt. Falls. "The Greek army and the forces of the Empire took up a defensive line. It ran across to link up with the Greeks in the neighbourgaged for Lake Ocnrida. Left of this line. was untenable with the German and Italian columns working round

"In the early fighting the enemy was successfully held, but it looks as if the Germans have now started an attack on a bigger scale and that this will be carried out. The strain on the defences will be terribly hard, though it has made all preparations to meet 12.

"It seems to me that the battle which is about to break will be the most vital in the war. in both cases the weight of armed forces is on the German side. I am confident that our troops will give a good;account of themselves in both theatres of war. I have no doubt that they and we too will have a hard time in front of us and that we should be wise to cut the excessive optimism that began to appear just because we were chivvying the Italians about.

"We must understand that there can be no victory until we have completely beaten a much more deadly toe," concluded Capt. Falls.

There is a story of a young Midshipman from a destroyer which was helping in evacuation of Dunkirk. He sat in a small boat for eight hours with a megaphone, bombs and machine-gun bullets lashing the water all round him. And for the whole of this time he repeated patiently to the soldiers who were crowding to the boats: "Single file, gentlemen, please."

The answer of a man when an air-raid warden told him to take shelter; "I've got to pay for the war. Can't I even look at it?'

. A doctor in St. Albans was astonished on visiting one of his regular patients, an elderly and very sick old lady, to find her miraculously recovered, "Well, you know," she said, "its wonderful how exhilarating it is, even at seventyfour, to be fighting the Devil."

A bomb fell in an East, End cemetery and dislodged a skeleton who was caught by a policeman in Macedonia, from the Greeks walking away with his tombstone under his arm. "Hey, what's that

Thus by look- have extended activities to ing at the device the residents will Bay of Bengal know how far the enemy planes It is further stated that Japare from Chungking.

#### LONG-RANGE BOMBERS TO OPERATE MILES ABOVE

SAN DIEGO, CAL.-Long-range bombers operating with little fear of attack seven miles above the earth may be expected to appear in the theatre of military combat "before this war is over," according to a paper by D. W. Tondinson, famed high-altitude flyer, read before the Southern California section of the Society of Automotive Engineers here.

Tomlinson, vice-president in charge of engineering for Transcontinental and Western Air. Inc., and a commander in the U.S. Naval Reserves, said these bombers would easily outstrip pursuit planes in the rarified air of 30,000 to 40,000-foot levels and be virtually free to deliver sledgehammer blows in daylight

CZECH INSTITUTE OPENED

Mr. Eden. Foreign Secretary opened the Czechoslovak Institute in London in the presence of a distinguished company which included President Benes and members of his Government.

The King, who is patron of the British Council," by whom the institute has been established, sent the following message to President

"On the occasion of the opening of the Czechoslovak Institute, I send my congratulations and best wishes to you and your countrymen. The institute will form a happy link between our two peoples in the pursuit of those ideals of liberty and justice to which they are both so wholehearted y attached"

"Mr. Eden said that the Czechoslovak people were heart and soul with Britain in the struggle. They were fighting side by side with the forces of the British Empire and the Allies

"This struggle," he went on, "is your struggle and ours, but it is much more than yours and ours. We are fighting a man whose ambition is boundless, a man who seeks to dominate the world Hitler's ap petite grows with what it seizes

# American Engineering Feats: Many Carried Out In W. Hemisphere

. Washington.-While Europe concentrated its engineering activities in 1940 on building of war machines, the Western Hemisphere forged ahead with many significant contributions to peacetime construction, a survey disclosed today.

America's most outstanding project according to the National Geographic Society, was the 160-mile, \$700,000,000 "superhigh way" across the western two-thirds of Pennsylvania from Harrisburg almost to Pittsburgh.

Having no grade greater than three per cent., the four-lane express way is without stops, traffic lights, grade crossings intersections and speed limit. The super- of a 205-mile road from Posados. road goes through-instead of over transportation.

Erie (across from Buffalo). The Darwin on the North. connections.

nearly 2,000 miles farther west in Canada, was opened in June. The road follows the north bend of the and Revelstoke. The Banff-Jusper Highway was put in use in July. It connects the Dominion's two largest national parks.

### BILLETING REGULATIONS IN S'PORE

Regulations empowering a competent authority to serve billeting notices to occupiers of premises requiring them to furnish accommodation by way of lodging or food, or both, and either with or without attendance for a specified number of people, were gazetted in Singapore.

Persons guilty of an offence under the Regulations will be liable to a fine not exceeding \$500, it was also announced.

ernor-to prescribe the lodging or ment. food to be furnished and the atto be paid.

If the occupier of any premises feels aggrieved by the requirements of any billeting notice, he may, within 14 days from the beginning of the day on which the notice is served on him, complain to a District Court:

#### COURTS POWER

The court, if satisfied that the accordance with the notice would huge floating pontoons of concrete. otherwise impose an undue burden in the order.

afford accommodation and give at- Rouge, La. tendance - in his premises in acmade by the District Court, unless River at Brisbane, Australia. such billeting notice is annulled by order, the Gazette states.

The authority prescribed in any order of the Governor must pay to the occupier of the premises in which any person in billeted the price prescribed by such order. and the amount of any sum so paid may, except where the person billeted is a member of the Forces or a public servant, or the wife or dependant of such a member, be recovered by the authority.

#### Around the clock in the pale! It is estimated that the harbour Arctic winter twilight, long of Llinahamari at present can columns of trucks Finnish, Ger- handle only 2,000 tons a day. But man and Swedish-roll over the only 25 or 30 per cent of othis narrow road with its hundreds of amount gets to Rovaniemi now

experienced drivers. The limited facilities at Linahamari and the British blockade of the Baltic have cut sharply into-Finish supplies. The shortage of foodstuffs and other vital commodities is reported to be even greater than was anticipated last

LACK OF CASH

Complicating Finland's problems to experts, has a capacity of 10,000 is a lack of ready cash with which tons daily, there never has been to purchase supplies from Russia, more than 2,000" tons shipped in the only nation to which she can one day, German and Swedish turn. A Russo-Finnish trade pact shipments, which are about the provides Finland must pay in cash same, are estimated to amount to when her arrearage of purchases reaches \$500,000

> Making purchases from the United States or South America. not only involves the problem of payment but also of transport.

Finland applied for a \$7,000,000 credit in the latter part of 1940 from the United States, but up to this time it has not been granted. England has granted Finland navicerts for foodstuffs, but has not allowed her to accumulate any stocks of potential military im- inst. portance.

#### URGENT NEEDS

Finland's most urgent needs are rye and wheat for bread, fats, meat and raw materials for her textile industry Finland's Minister of supplies told the United Press that there is only enough rye and wheat on hand to last until the end of May.

ploys 30,000 workers but because been forced to work far below and air raid defence. capacity. The industry has avoidtwo-day-a-week shifts.

#### LONDON STOCK EXCHANGE

LONDON, Apr. 17 (Reuter) -The Stock Exchange ruled very quiet with price movements narrowly irregular and operators were inclined to mark "time" in view of the uncertain war news. Gilt-edged and Home Rails tended easier but Industrials were mostly well maintained, and Oils were steady apart from half-crown fall of Anglo-Egyptian

to £2 23, 6d. declines recorded in Chinese, Japanese, Brazilian and Egyptian. Wall Streeet was very quiet.

#### LONDON METALS **EXCHANGE**

London, Apr. 18 (Reuter). Tin, liStandard, Cash, Middle Price, £270-7/8.

Tin Standard, 3 months. Middle Price, £268-1/8.

Market steady. The Ministry of Supply's offer for "Cash" at £270-3/4 restrained the uptrend with ease and better demand by America, coupled with doubts of Japanese intentions in the Pacific. Con-Foreign Bonds were easier with centrated cash buying was later absorbed by Ministry's offers. After hours-75 tons, at £271 and £268-1/4-buyers.

## AMERICA'S PACIFIC OUTPOST CAN BE MADE INVINCIBLE

BY CAPT. FREDERICK L. O'IVER

NEW YORK.—Guam has been United States territory's for 42 years, during which period of time practically no attempt has been made to capitalise on its military possibilities.

Had Guam been developed as a naval base, it, together with Panama, Hawaii, and Alaska, would give the United States an almost impregnable advanced line thrown far out into the Pacific. Such a line would have made possible an entirely different plan of naval strategy in the Pacific, and incidentally have made a considerable difference in the huge outlay of money now being poured into the present effort to bolster the Nation's defences.

In 1938, the report of a Navy in height. The southern part Board appointed to inquire into hilly, with a maximum elevation of naval needs stated that a strong some 1,400 feet. advanced base at Guam would There are several small rivers

the world. In 1665 it was taken used advisedly, because under the citizens —(Japan Chronicle) under the Spanish flag, and became a regular port of call for their galleons plying between Manila and Acapulco. It also was frequented by privateers, pirates, and whalers which called for water and provisions.

Over 200 years of misrule under incompetent Spanish governors terminated in June, 1893, when the Island was captured by the U.S.S. Charleston which was en route in Manila with a troop convoy.

No news of the hostilities had reached Guam, and the Island was without any means of defence. It is related that the Spanish Governor, believing the shots fired by the Charleston at what proved to be an obsolete fort to be a salute, sent an officer to explain that much to his regret no powder was available for firing a return salutel

Guam is an island of volcanic and coral formation, about 30 miles long and approximately 9 miles in greatest width, the axis lying in a generally north and south direction. The northern part is a plateau. 200 to 500 feet

# AMERICAN TENNIS RANKINGS

# McNeill Climbs To Top And Alice Marble Stays There

Donald McNeill of Oklahoma City climbed to the top and Miss Alice Marble of California remained there, albeit for the last time, in the national tennis singles rankings announced by the U.S.L.T.A.

For Miss Marble, her accustomed place as No. 1 woman player comes as a farewell gesture from amateur tennis, because fair-haired Alice is now sharpening her weapons for the professional wars after four victories in the national tournament. For the 22-year-old men's champion the No. 1 spot is a promotion, for he had to hurdle Bobby Riggs of Chicago and Frank Parker of California to rise from third place.

geles.

There was considerable shuffling of positions from a year ago among the first ten, in both the men's and women's divisions, more so in the men's than in the women's. One of the biggest falls of all is that of the young Los Angeles hopeful, S. Welby Van Horn, whose sensational play in 1939 gave him No. 4 ranking, only to be followed by disappointments last season that left him no better than fifteenth.

Parker, another Californian, also indulged in a nose dive, although not so violent a one as Van Horn He merely dropped from No. 2 to No. 5, while Riggs, the champions and No. 1 in 1939, was relegated to the second spot

There is no change at all as far at the first two places in women's singles are concerned, for Miss Helen Jacobs again is just a sterbehind Miss Marble. These two met in the final in the nationals and Miss Marble won easily, just as she had in her earlier tests ..

The campaign among the women saw the rise of still another Californian, Miss Pauline Betz, who cient date—Elwood T. Cooke and vaulted from No. 8 to No. 3, a posi- Robert L. Riggs. Robert Harman tion held last year by Mrs. Sarah and Robert C. Peacock, Joseph R. Palfrey Cooke, who tumbled to Hunt and Charles E. Olewine. No. 6.

#### KRAMER GAINS ELEVEN PLACES

One of the best advances among the men was made by 19-year-old Jack Kramer. This East Los Angeles youth was ranked seventeenth a year ago, somewhat unjustly in the eyes of some critics, but he turned out to be one of the sensations of the season, fulfilling the promise ne had shown as national boys' champion, to enter the select group of ten at No. 6.

Frank Kovacs 2d of Oakland Calif., re-entered the chosen circle after a year's absence because of insufficient data, ranking their behind McNeill and Riggs

Dropping out of the first ten and, indeed, out of the tennis picture, was Wayne Sabin, No. 5 in 1939. Sabin got into difficulties with the U.S.L.T.A. over the eight= week rule last February. Bryan Grant, formerly No. 7, dropped to No. 11 and Gilbert Hunt, earstwhile No. 9, fell to No., 15.

Joe Hunt, who, like Kovacs, was lost one of its best girl players and not ranked a year, ago, replaced America its most dominant per-Van Horn at No. 4, and Free sonality since Helen Wills, when Schroeder of Glendale, Calif., be- | Mary Hardwick and Alice Marble came the fourth new player to made their professional tennis debreak into the first ten, being buts at Madison Square Garden, New York. ranked tenth

Among the women players, eigra of those who were among the first ten previously remained there, af though not all in their forme positions. Miss Betz and Miss Dorothy May Bundy climbed No. 3 and 4, respectively, from eighth and sixth, and Mrs. Gracyn Wheeler Kelleher rose to No. 5 after being unranked in 1939 because of insufficient data.

Miss Helen Bernhard of New corners, and surprising mobility on York dropped from fourth to eight, the court. and Miss Virginia Wolfenden from fifth to seventh. The Misses Dorothy Workman and Katherine Winthrop, Nos. 7 and 9 in 1939, were not listed, the latter because than \$50,000. She has a guarantee of insufficient data.

In men's doubles the youthful percentage of gate receipts. pair of Kramer and Schroeder, the national champion, replaced Mc-Neill and Parker in the No. 1 rating. The 1939 leaders were placed companion of recent years. Miss guilders. He also announced that second.

#### TUNE IN ON FOREIGN RADIO STATIONS IN THIS WAY

Tuning in with radio stations abroad can be a thrilling" experience to anyone who knows how to do it properly. For the benefit of local radio enthusiasts, a number of points have been outlined which must be observed in order to get and enjoy distant receptions.

#### FIRST THING

The first thing to do is to have an all-wave radio set as the majority of distant stations operate and; can only be heard on short wave. One must make sure that the set is in good condition and 7.—Gardner Mulloy, Coral Gahave the tubes tested. A good antenna is of major importance in 8.—Henry J. Prusoff, Seattle, short wave reception.

It is suggested that tuning be 9.—Elwood T. Cooke, Portland, done carefully and slowly, since rapid turning of the controls of 10.—Frederick R. Schroeder Ji., the radio results in the passing of the desired station, which otherwise may be heard clearly.

One must not expect to hear a certain station anytime as conditions of reception vary with the time of the day, season, weather and other natural factors. Con-3.-Gardner Mulloy and Henry J. sulting of newspapers and magazines for short wave station lists 4.—Robert Harman and Charles helps a great deal.

#### SAME THING

It has been observed that con-6.—Robert L. Riggs and S. Welby fusion sometimes has been caused by radio terms as meters, kilocy-7.—Wilmer Allison and John Van cles, megacycles. Actually they are three different ways of expressing 8.—Edward Amark and Francis the same thing.

These terms are units of mea-9 -- Kenneth Bartelt and William surement and when the radio wave is expressed in meters, kilocycles 10.-Laurence Dee and James and megacycles, it is like express-

ing length in feet, yards or miles. For example, if a station operates on 780 kilocycles, two other ways of saying it, are 385 meters and .78 megacycles. One megacycle is equivalent to 1,000 kilocycles, and knowledge of this is of great importance in dialing 1.-Miss Alice Marble, Beverly for short wave stations because as the wavelength in meters decreases 2-Miss Helen Hull Jacobs, Ber- the frequency in kilocycles increases. A wavelength of 10 meters corresponds to 30,000 kilocycles or 30 megacycles.

# N.E.I.'S SPITFIRE **EFFORT**

The amalgamation of the Prince Bernhard and Spitfire Funds has been welcomed throughout Batavia. Among the latest contributions are 15,000 guilders each from the N.I. Commercial Bank and the N. I. Agricultural Society, and postal orders are coming from all sources in great numbers

The new building in which the combined funds have established their quarters has been officially opened. Mrs. Tjarda van Ştarkenborgh Stachouwer, the Governor General's "wife, cut the ribbon closing the entrance, after two British and two Netherlands flags had been hoisted with due ceremony.

The decorations in the building terranean. are of a type expressing the unity between Britain and Holland. Nearly everyone in Batavia con-In the U.S. professional tennis tributed to the centre.
